

## Call for Papers: DNA and Associated Biomolecules in Mummy Research

**Country:** United States

**State:** California

**Date:** 4/19/2011

Call for Papers: DNA and Associated Biomolecules in Mummy Research

Organizers: Mark Spigelman (Sydney, Australia) and Dong Hoon Shin (Seoul National University, Seoul, Korea; email: [drdoogi@snu.ac.kr](mailto:drdoogi@snu.ac.kr)).

Sponsoring organization: 7th World Congress on Mummy Research.

DNA and associated biomolecules form an important and growing part of research associated with mummy studies. A discussion of the progress and future direction of this science will help mummy researchers to better understand how this type of investigation could assist workers in the field and also contribute to a better understanding of the life and death of mummies. As this research is potentially destructive, the symposium will discuss how to biopsy mummies using minimally destructive or intrusive methodology. A second goal of the symposium is to try to establish baselines and protocols on how and/or what to sample and amounts to be taken in order to achieve the desired results. Persons interested in participating in this session are urged to contact the organizers.

92nd Annual Meeting of the American Association for the Advancement of Science, Pacific Division including the 7th World Congress on Mummy Studies

12 – 16 June 2011 San Diego, California

Members of AAAS and its affiliated societies, students, teachers and other scientists are encouraged to participate in the annual meeting of the Pacific Division of AAAS by presenting papers and/or posters. Persons wishing contribute a paper or poster to present at one of the sessions should e-mail as a Word or .rtf attachment the title, abstract and other required information to the chair of the appropriate society or section and also the Pacific Division office at [rchristi@sou.edu](mailto:rchristi@sou.edu). If you are presenting in a symposium, please forward your abstract directly to the symposium planner. If your abstract contains special characters, please fax a copy in addition to the e-mail submission to the Pacific Division office, 541-552-8457. The deadline for abstract submission is 19 April 2011.
