

Third Annual International Pediatric Antimicrobial Stewardship Conference

Country: United States

State: Missouri

Date: 5/31/2012

Third Annual International Pediatric Antimicrobial Stewardship Conference

Sponsored by Children's Mercy Hospitals and Clinics and the Pediatric Infectious Diseases Society

May 31 - June 1, 2012 Kansas City, Missouri

Meeting Topics

May 31st

Nuts and bolts: Initiation and implementation of an Antimicrobial Stewardship Program (ASP)

June 1st

Stewardship strategies in the outpatient setting
Empiric disease specific antimicrobial utilization
Utilization of microbiology laboratory data to guide ASP decisions
International efforts involving ASPs
Useful Strategies for inpatient antimicrobial stewardship
ASP evaluation and outcome metrics

Learning Objectives

At the completion of the course, healthcare professionals will be able to:

Implement and evaluate a pediatric ASP
Understand the importance of Pediatric ASPs on a global scale
Identify strategies to improve outpatient antibiotic use
Design evaluation strategies for your ASP
Identify barriers to and potential strategies to optimize ASP outcomes

Meeting Location

The meeting will occur at Children's Mercy Hospitals and Clinics in Kansas City, MO.

Interested in Meeting
