

International Symposium on Ocular Pharmacology and Therapeutics ISOPT Clinical 2013

Country: France

Date: 3/07/2013

International Symposium on Ocular Pharmacology and Therapeutics ISOPT Clinical 2013

March 7-10, 2013 Paris, France

ISOPT will reconvene in Paris March 7 – 10 for our 10th symposium. Over the years, ISOPT has repeatedly shaped its form so it can accommodate to provide a collaborative atmosphere for clinicians, clinical trialists, pharma industry and regulatory officers. Our formed vision has been to increase knowledge and awareness of drug usage in ophthalmology reflecting innovations and their utilization in practice. In order to achieve this vision ISOPT is set to implement the following missions:

Educate via updating and sharing current and evolving treatment algorithms for practitioners.

Connect data arising from clinical studies to actual daily practice.

Facilitate innovation via panels and discussions of early and late “development related topics”.

We invite you to join us in Paris, and become a part of ISOPT, bring your own experience and insights of treating your patients, be exposed to the last two year clinical experience gained in major industry supported studies and be part of the efforts to reflect scientific data to clinical reality and patient care.

ISOPT has become famous for its informal atmosphere and the ability to meet experts and faculty leaders for “out of the lecture hall” discussions.

Whether your field of interest is in retinal diseases, inflammation, cornea and external diseases, glaucoma or basic science you may contribute and be part of the ISOPT spirit.

Focused Update in Medical Management

Retina

Dry AMD

Wet AMD

Diabetic Retinopathy

Diabetic Macular Edema

Retinal Vein Occlusion

Retinal Degeneration

Devices & Drug Delivery

Inflammation & Infection

Allergic Conjunctivitis

Treatment Updates

Clinical Studies for Uveitis

Cases Presentation

Ocular Infections

Basic Science

Therapy of Neovascularization

Inhibition of Diabetic Retinopathy

Antioxidants and Nutrition

Vascular Targets

Gene Therapy

Glaucoma

Conventional & Potential Glaucoma Therapy

Glaucoma Therapy & Ocular Surface

Intraocular Pressure & Glaucoma

Blood Flow & Glaucoma

External Eye Diseases

Dry Eye Treatment Innovations

Dry Eye-Ocular Surface Clinical Trials

Wound Healing

External Eye Diseases

Anterior Segment Imaging

Devices

Drug Development

Drug Delivery

Imaging

Toxicology

Nano Technology

Regulation of Ophthalmic Products

Ethics

A platform for informal communication with experts in drug development

Symposium Secretariat

Paragon Conventions

18, Avenue Louis-Casai

1209 Geneva, Switzerland
